

Compression fabric colours:

Available in 9 colours and compatible with all thread and reinforcement options.

Compression fabric patterns:

Available in 2 options and compatible with all thread options. Patterned fabric can only be used for the front panels of an orthosis and not on the back, arms or legs.

Thread colours:

Available in 15 colours and compatible with all compression fabric and reinforcement powernet options.

Reinforcement powernet colours:

Available in 8 colours and compatible with all thread and compression fabric options.

Please note that your reinforcement panels will always be laid over the compression fabric.

Please note that whilst every effort has been made to ensure that colours are shown as accurately as possible, there may be variations due to the printing process.
